

## RDH1225B 12V DC Fan (4-pin)

Wiring (viewed from wire side):

Pin 1 - Black with white dashes: Ground (GND)

Pin 2 - Black: +12V Power

Pin 3 - Black: Tachometer (RPM signal) - optional

Pin 4 - Black: PWM Signal (Speed control input) - optional

Note: For operation in our cooling system, only the +12V and Ground wires are required. The tachometer and PWM wires are optional and used for speed monitoring and control.

## HC600 12V DC Brushless Water Pump (3-pin)

Wiring (viewed from wire side):

Pin 1 - Black: Ground (GND)

Pin 2 - Red: +12V Power

Pin 3 - White: Tachometer (RPM signal) - optional

Note: For operation in our cooling system, only the +12V and Ground wires are required. The tachometer wire is optional and used for monitoring pump speed.
